Buckets and Spades - E&D Week 6.

Activity 3:

To understand there are 7 continents and 5 oceans.

Look at the world map resource and discuss where the UK is.

Can they find Europe? What other countries do they know? Can they find them on the map? Discuss how the world is made up of countries and those countries are grouped into continents. Highlight the other continents. Where have the children heard of these?

Watch the video on the 7 continents.

http://www.whatarethe7continents.com/

Ask the children to label the 7 continents on the printed map resource, using the word bank to ensure they spell the names correctly (with capital letters).

Play the 5 Oceans song on You Tube:

https://www.youtube.com/watch?v=vfv7TF9RHbY

Ask your child to try and remember the names of the 5 oceans.

Then the children can label the 5 oceans on the 5 Oceans map using the word bank, or add them to their continents map.

NB - Parents can use the Continents and Oceans map to check your child has labelled their maps correctly. They could then colour their maps in using colours as the example. If you aren't able to watch the videos, use this map to show your child where the continents and oceans are.

Apologies that the Art activity got missed off last week's download - we have included it this week. Please note, you do not need to print off the powerpoint and it can just be looked at on a laptop or computer.
