

Week 5

Task master challenges.

This week for your Explore and Discover, it is time to get creative. You have two tasks to complete and send in to us. Remember, the more creative the better.

We hope to see lots of videos coming in.

Challenge 1:

Act out a momentous moment from History.

Challenge 2:

Make and demonstrate the best method of transport.

Remember to send your videos to :

Shakespeare@keston.croydon.sch.uk

Dickens@keston.croydon.sch.uk

Music

Go to <https://charanga.com/site/log-in/> and log in as a student.

To log in:

Username: firstname,surname followed by kps.

Password: your class name. shakespeare or dickens.

Eg: johnsmithkps

Shakespeare.

Mrs Woods has set a music lesson up for you to complete, this will be changed weekly.

Votes for schools.

Go to the Keston website, distant learning and votes for schools.

Here you will find a new topic to debate, discuss and explore. It is a perfect opportunity to sit down with the family and have a debate. Let us know your thoughts.

Old Coulsdon

If you can and only do so if you are able to socially distance and are with parents or carers, take a walk around Old Coulsdon. Print out the sheet and have a look at the places it mentions.

What have you learnt?

Email us anything interesting you find out!

P.E

Please see guidance on the website.

Science – over two weeks

Look at the powerpoint – How DNA works - and find out about DNA. Then, have a go at the activities. Some are more challenging than others!

Activities:

DNA structure

Colour this DNA structure correctly using the key- level green.

DNA code message

Represent each colour code with an alphabet letter and write a message – level amber.
You could write and send us a message- don't forget to include your code though!

Decode the DNA

Using the powerpoint slide, decode the DNA sequence into amino acids –level red.
Be careful of those tricky spellings!
