

Year 6 Distance Learning – Week 4 Expectations

Weekly:

Spellings

Learn a selection of the year 5/6 spelling words (We will be testing you on these when we are back at school!)

Comprehension homework

Complete the next comprehension in your Schofield and Sims book.

Reading

Please read daily with your child and record this in their reading record. We are happy for you to read any books you have available at home.

Computing

<https://scratch.mit.edu/> Scratch is a great resource to start children coding. They will be familiar with this already. <https://hourofcode.com/uk> also has coding activities available for free, as well as <https://www.busythings.co.uk/> which can be logged in with the children's LGFL logins.

P.E.

Mrs Johnson has created a list of ideas for keeping active whilst at home.

Maths

Arithmetic: There is an arithmetic paper for you to complete.

The main focus for this week is different types of graphs and charts. For each chart/graph there is a learning PowerPoint that should give you some tips on how to complete the work.

Please ensure that if there is anything you are unsure about, then don't hesitate to email the class teachers directly.

Some of the work is differentiated and colour coded, so have a look first at which ones you feel comfortable completing. However, do try to challenge yourself!

Please use your LGFL log in to complete any assignments we set on the Busy Things website.

English

Writing:

This week, you will be using a short video clip to inspire your writing. You have the freedom to take this anywhere you like, however we have added some suggestions in the home learning folder.

Remember – before starting your writing, it is a good idea to plan where you want to go with it. Whether that is brainstorming ideas, creating a storyboard and then drafting and re-drafting, this will only make your writing better!

Grammar:

- 1) Complete grammar word mats.

Explore and Discover

This week you will be looking at fossils. Look through the learning power points then have a go at the activities.

If you want to, have a go at maybe creating your own fossils at home! See the link below.

<https://craftsbyamanda.com/coffee-ground-fossils/>

Music

These are some fun musical ideas for your children to try at home .

<https://www.bbc.co.uk/programmes/articles/2wTCQs3RwT9qQ6J86MktWC4/ks2-music-macbethinfo>

This is a musical tale telling the story of Macbeth.

Down load the story, meet the characters, and enjoy singing the songs. Try the vocal warm up before you start

Escape Room task

We have also included a fun escape room activity for you to complete.

**As always please do share some examples of your work
with us, we love seeing what you have been up to!**
