Watch the story 'The Doorbell Rang' on Youtube

(<https://www.youtube.com/watch?v=gNTSBmbVNLE>). In the story the children are trying

to share 12 cookies, but the number of people who want them keeps getting bigger. Follow along with their sharing to figure out how many each person would get each time:

12 between 2

12 between 4

12 between 6

And 12 between 12.

See if you can figure it out before the story tells you.

What would happen if

Victoria and Sam only had to share with one other friend?

What is 12 between 3? Could

Sam and Victoria share fairly with 3 other friends -

12 between 5?

Give the sharing challenges below a try for added practise.
