

As mathematicians, we will continue to secure our arithmetic skills, deepen our understanding of maths and improve our reasoning skills. We will re-visit measurement, time, money, shape, and fractions.

Please continue to regularly practise your times tables at home. In Year 2 the children should focus on their 2s, 5s and 10s. They can also begin to practise their 3s.

As writers, we will continue to use a range of punctuation correctly in our writing, a variety of conjunctions and adjectives to ensure our writing is interesting and exciting. Our text will be The Diary of a Killer Cat by Anne Fine.

As readers, we will continue to develop our retrieval, inference, and sequencing skills through our VIPERS sessions.

Please can we remind you that in order for your child to become a Rocket Reader they need to read 5 times a week.

Please continue to check Google Classrooms for homework if the Maths and Comprehension books aren't sent home. Continue listening to your child read and help them learn their spellings.

Year 2

Summer Term 2

Let's Grow

As scientists, we will understand how plants grow. We will also look at animals and their offspring, their food chains, and the habitats that they live in.

In PE, we will be focusing on games— developing and inventing rules.

In wellbeing , we will be looking at how to manage our feelings, what happens when we grow up and how to manage change.

In RE, we will be looking at 'Why are some things special?'

As computer scientists, we will be interpreting, collecting and inputting data onto Excel.

As geographers, we will take part in fieldwork within the school grounds and explore the environment in which we live in. We will construct basic symbols in a key and devise a simple map.

As artists and designers, we will design and build our own structures and link this to habitats as part of our Let's Grow topic.

If you have any queries or issues, please do not hesitate to contact us via the class e-mail addresses.
